

January 28, 1958

Dr. Milton Weiner
University of Pittsburgh
School of Medicine
Department of Microbiology
Pittsburgh 13, Pennsylvania

Dear Milton:

To yours of the 15th:

We'll help where we can.

- (1) Does not exist as far as I know.
- (2) Better get this from Hershey - we've done nothing along that line.
- (3) Our putative "Hfr Lac₄⁻" is also infertile.

We are sending you W-3120-Hfr K⁻ Lac₁⁺. This carries the identical Lac₁⁻ marker as the type strain (Y87).

All best wishes,

Joshua Lederberg
Professor of Medical Genetics
